— DATASHEET —

Host: Rabbit Clonality: Polyclonal GeneID: 1004 Target: CDH6 Immunogen: KLH conjugated synthetic peptide derived from human K Cadherin: 281-380/790. < Extracellular > Purification: affinity purified by Protein A Concentration: 1mg/ml Storage: 0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol. Shipped at 4°C. Store at -20°C for one year. Avoid repeated freeze/thaw cycles. Background: K Cadherin (Cadherin 6) is a type II classical cadherin from the cadherin superfamily. It is a calcium dependent cell-cell adhesion membrane glycoprotein comprised of five extracellular cadherin repeats, a transmembrane region and a highly conserved cytoplasmic tail. Cadherins preferentially interact with themselves in a homophilic manner in connecting cells. K Cadherin is highly expressed in brain, cerebellum, and kidney. Lung, pancreas, and gastric mucosa show a weak expression. It is also expressed in certain liver and kidney carcinomas.	Isotype: IgG SWISS: P55285	Applications: Flow-Cyt (1µg/Test) Reactivity: Human (predicted: Mouse, Rat, Cow, Horse) Predicted MW.: 82 kDa Subcellular Location: Cell membrane
