[Primary Antibody]

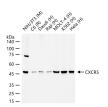

CXCR5 Recombinant Rabbit mAb

www.bioss.com.cn sales@bioss.com.cn techsupport@bioss.com.cn 400-901-9800

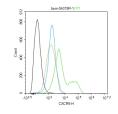

- DATASHEET -Host: Rabbit Isotype: IgG Applications: WB (1:1000-5000) Flow-Cyt (lug/Test) CloneNo.: 3B7 **Clonality:** Recombinant GenelD: 643 SWISS: P32302 Reactivity: Human, Mouse, Rat Target: CXCR5 Immunogen: A synthesized peptide derived from human CXCR5: 330-372. Predicted 45 kDa Purification: affinity purified by Protein A MW.: Concentration: 1mg/ml Subcellular Location: Cell membrane Storage: 0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol. Shipped at 4°C. Store at -20°C for one year. Avoid repeated freeze/thaw cycles. Background: This gene encodes a multi-pass membrane protein that belongs to the CXC chemokine receptor family. It is expressed in mature Bcells and Burkitt's lymphoma. This cytokine receptor binds to Blymphocyte chemoattractant (BLC), and is involved in B-cell migration into B-cell follicles of spleen and Peyer patches.

- VALIDATION IMAGES

Aug 2011]

25 ug total protein per lane of various lysates (see on figure) probed with CXCR5 monoclonal antibody, unconjugated (bsm-54319R) at 1:2000 dilution and 4°C overnight incubation. Followed by conjugated secondary antibody incubation at r.t. for 60 min.

Alternatively spliced transcript variants encoding different isoforms have been described for this gene. [provided by RefSeq,

The Molt-4(H) cells were incubated in 5%BSA to block non-specific protein-protein interactions (30 min at r.t.). Primary Antibody (green): Rabbit Anti-CXCR5 antibody (bsm-54319R): 1 μ g/10⁶ cells; Secondary Antibody (white blue): Goat anti-Rabbit IgG-FITC (bs-40295G-FITC): 1 μ g/test. Isotype Control (orange): Rabbit IgG (bs-0295P). Blank control (black): PBS. Acquisition of 20,000 events was performed.
