## Rabbit Anti-Mouse IgM, BF594 conjugated

Catalog Number:	bs-0368R-BF594
Target Protein:	Rabbit Anti-Mouse IgM
Host:	Rabbit
Clonality:	Polyclonal
Isotype:	IgG
Reactivity:	Mouse
Source:	Native Mouse IgM: full length.
Purification:	affinity purified by Protein A
Storage:	Store at -20°C stable for 2 years (lyophilized powder). Avoid repeated freeze/thaw cycles.
Background:	IgM normally constitutes about 10% of serum immunoglobulins. IgM antibody is prominent
	in early immune responses to most antigens and is largely confined to plasma due to it's
	large size. Monomeric IgM is expressed as a membrane bound antibody on the surface of B
	cells and as a pentamer when secreted by plasma cells. Due to it's high valency IgM is more
	efficient than other isotypes is binding antigens with repeating epitopes (virus particles and
	red blood cells) and is more efficient than IgG in activiating the complement pathway. The
	gene for the mu constant region contains four domains separated by short intervening
	sequences.
