TMF1 Recombinant Rabbit mAb**— DATASHEET —**

Host: Rabbit	Isotype: IgG	Applications: WB (1:1000-1:2000) ICC/IF (1:50-1:200)
Clonality: Recombinant		Reactivity: Human
GeneID: 7110	SWISS: P82094	
Target: TMF1		
Immunogen: A synthesized peptide derived from human TATA element modulatory factor: 1000-1093.		Predicted MW.: 123
Purification: affinity purified by Protein A		Subcellular Location: Nucleus
Storage: 10mM phosphate buffered saline(pH 7.4) with 150mM sodium chloride, 0.05% BSA, 0.02% Proclin300 and 50% glycerol. Store at 4°C for short term. Store at -20°C for long term. Avoid repeated freeze/thaw cycles.		
Background: Potential coactivator of the androgen receptor. Mediates STAT3 degradation. May play critical roles in two RAB6-dependent retrograde transport processes: one from endosomes to the Golgi and the other from the Golgi to the ER. This protein binds the HIV-1 TATA element and inhibits transcriptional activation by the TATA-binding protein (TBP).		

— VALIDATION IMAGES —

Western blot analysis of HeLa cell lysate. Using TMF1 (bsm-62774R) monoclonal antibody at 1:1000 dilution and 4°C overnight incubation. Followed by conjugated secondary antibody incubation at r.t. for 60 min.
