Recombinant human IL-6 protein, C-His

Catalog Number:	bs-10807P
Concentration:	>0.5 mg/ml
AA Seq:	30-212/212
Predicted MW:	15
Detected MW:	20-24 kDa
Tags:	C-His
Activity:	Not tested
Endotoxin:	Not analyzed
Purity:	>95% as determined by SDS-PAGE
Purification:	AC
Form:	Lyophilized or Liquid
Storage:	10mM TBS (pH7.4).
	Stored at -70°C or -20°C. Avoid repeated freeze/thaw cycles.
Background:	This gene encodes a cytokine that functions in inflammation and the maturation of B cells.
	In addition, the encoded protein has been shown to be an endogenous pyrogen capable of
	inducing fever in people with autoimmune diseases or infections. The protein is primarily
	produced at sites of acute and chronic inflammation, where it is secreted into the serum and
	induces a transcriptional inflammatory response through interleukin 6 receptor, alpha. The
	functioning of this gene is implicated in a wide variety of inflammation-associated disease
	states, including suspectibility to diabetes mellitus and systemic juvenile rheumatoid
	arthritis. [provided by RefSeq, Jun 2011].

VALIDATION IMAGES

The purity of the protein is greater than 41% as determined by reducing SDS-PAGE.

The purity of the protein is greater than 90% as determined by reducing SDS-PAGE.
