## **IGF-I Antibody Blocking Peptide**

Catalog Number: bs-0014P

Activity: Not tested

Purification: HPLC

Storage: Shipped at 4°C. Stored at -20°C for one year. Avoid repeated freeze/thaw cycles.

Background: The protein encoded by this gene is similar to insulin in function and structure and is a

member of a family of proteins involved in mediating growth and development. The

encoded protein is processed from a precursor, bound by a specific receptor, and secreted. Defects in this gene are a cause of insulin-like growth factor I deficiency. Several transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Mar

2009]
