C210RF62 Antibody Blocking Peptide

Catalog Number: bs-9975P

Activity: Not tested

Purification: HPLC

Storage: Shipped at 4°C. Stored at -20°C for one year. Avoid repeated freeze/thaw cycles.

Background: The smallest of the human chromosomes, 21 makes up about 1.5% of the human genome.

Chromosome 21 contains nearly 300 genes and 47 million base pairs. Down syndrome, also

known as trisomy 21, is the disease most commonly associated with chromosome 21.

Alzheimer's disease, Jervell and Lange-Nielsen syndrome and amyotrophic lateral sclerosis

are also associated with chromosome 21. Translocations are found to occur between

chromosome 21 and 8, and chromosome 21 and 12, in certain leukemias. The C21orf62 gene

product has been provisionally designated C21orf62 pending further characterization.
