
Mouse TSLP ELISA Kit

- 产品编号: bsk12040
- 种属: Mouse
- 线性范围: 7.8-500 pg/mL
- 应用范围: S/P/CC
- 检测限: 4 pg/mL
- 适用样品基质: cell culture supernates, serum, and plasma.
- 保存条件: Store at 4°C for 6 months, at -20°C for 12 months. Avoid multiple freeze-thaw cycles (Shipped with wet ice.).
- 产品介绍: Thymic stromal lymphopoietin (TSLP) is a novel cytokine that was found to promote the development of murine B cells in vitro. This protein, which is expressed in a number of tissues including heart, liver and prostate, prevented apoptosis and stimulated growth of the human acute myeloid leukemia (AML)-derived cell line MUTZ-3. Anti-interleukin (IL)-7 receptor antibodies (Abs) neutralized this effect indicating that TSLP binds to at least part of the IL-7 receptor complex. TSLP induced phosphorylation of signal transducer and activator of transcription (STAT)-5.
