## Ac-LEVD-pNa

产品编号: C07-01006

CAS: N/A

保存条件: Store at -20 °C for one year.

产品介绍: Caspase 4, a cysteine protease activator of inflammatory processes, may be detected using a variety of chromogenic and fluorogenic peptide substrates built around the LEVD (leu-glu-val-asp) sequence such as the chromogenic substrate Ac-LEVD-pNa (Acetyl-Leu-Glu-Val-Asp-p-nitroanalide).
