
Fuzapladib

产品编号: D62563

CAS: 141283-87-6

分子式: C₁₅H₂₀F₃N₃O₃S

纯度: 98%

InChi Key: InChIKey=TUWCZRFHNIOVTC-UHFFFAOYSA-N

Smiles: O=C(NC1=CC(=CN=C1NS(=O)(=O)CC)C(F)(F)F)C2CCCCC2

外观: 固体粉末

作用通路: Metabolism

作用靶点: Phospholipase

保存条件: -20°C

产品介绍: Fuzapladib (IS-741) is a phospholipase A2 inhibitor that can inhibits the expression of Mac-1, a cell adhesion molecule. Fuzapladib blocks activation of adhesion molecules (integrin) expressed on the inflammatory cell surface to prevent inflammatory cells from adhering to vascular endothelial cells and infiltrating tissue and to control exacerbation of pancreatitis.
