Recombinant Human ACE2 Protein, C-His

Catalog Number: bs-105683P

Species: Human

AA Seq: 19-615/805

Predicted MW: 74.17 kDa

Tags: C-His

Activity: Not tested

Purity: >90% as determined by SDS-PAGE.

Purification: AC

Form: Lyophilized

Storage: Lyophilized from a solution in PBS pH 7.4, 1mM EDTA, 4% Trehalose, 1% Mannitol.

Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8°C for

frequent use. Store at -20 to -80°C for twelve months from the date of receipt.

Background: The protein encoded by this gene belongs to the angiotensin-converting enzyme family of

dipeptidyl carboxydipeptidases and has considerable homology to human angiotensin 1 converting enzyme. This secreted protein catalyzes the cleavage of angiotensin I into

angiotensin 1-9, and angiotensin II into the vasodilator angiotensin 1-7. The organ- and cell-

specific expression of this gene suggests that it may play a role in the regulation of

 $cardiov a scular \ and \ renal \ function, \ as \ well \ as \ fertility. \ In \ addition, \ the \ encoded \ protein \ is \ a$

functional receptor for the spike glycoprotein of the human coronaviruses SARS and HCoV-

NL63. [provided by RefSeq, Jul 2008]
