Recombinant Human IL-6 Protein, C-His-Avi

Catalog Number: bs-105729P

Species: Human

AA Seq: 30-212/212

Predicted MW: 16.75 kDa

Tags: C-His-Avi

Purity: >90% as determined by SDS-PAGE.

Purification: AC

Form: Lyophilized

Storage: Lyophilized from a solution in PBS pH 7.4, 1mM EDTA, 4% Trehalose, 1% Mannitol.

Use a manual defrost freezer and avoid repeated freeze thaw cycles. Store at 2 to 8°C for

frequent use. Store at -20 to -80°C for twelve months from the date of receipt.

Background: This gene encodes a cytokine that functions in inflammation and the maturation of B cells.

In addition, the encoded protein has been shown to be an endogenous pyrogen capable of inducing fever in people with autoimmune diseases or infections. The protein is primarily

produced at sites of acute and chronic inflammation, where it is secreted into the serum and

induces a transcriptional inflammatory response through interleukin 6 receptor, alpha. The

functioning of this gene is implicated in a wide variety of inflammation-associated disease

states, including suspectibility to diabetes mellitus and systemic juvenile rheumatoid

arthritis. [provided by RefSeq, Jun 2011].
