
Rabbit Anti-Biotin, APC-Cy7 conjugated

Catalog Number: bs-0311R-APC-Cy7

Target Protein: Rabbit Anti-Biotin

Host: Rabbit

Clonality: Polyclonal

Isotype: IgG

Applications: IF (1:100-500)

Purification: affinity purified by Protein A

Storage: 0.01M PBS (pH7.4).

Store at -20°C stable for one year. Avoid repeated freeze/thaw cycles.

Background: Biotin is a water soluble vitamin, generally classified as a B complex vitamin, also called vitamin B4. After the initial discovery of biotin, nearly forty years of research were required to establish it as a vitamin. Biotin is required by all organisms but can only be synthesized by bacteria, yeasts, molds, algae, and some plant species. Biotin is required as prosthetic group of enzymes involved in incorporation of carbon dioxide into organic compounds. Biotin has a MW of 244 Da.
